

Let's meet!

Hi, I am Joëlle. I am your receptionist at Estrella Nocturna. I find Estrella Nocturna the most charming hotel I have ever seen nestled in the breath taking mountains of Bodano. I work her since the beginning of the opening of the hotel so I really do feel connected with the hotel and the rest of the team members. I have always been enthusiastic about nature and the serenity of mountain landscapes.

My responsibilities as a receptionist at Estrella Nocturna go beyond the the typical duties. I welcome the guest with a genuine warmth, ensuring they feel surrounded by the chill atmosphere of the mountains. I hope my passion for the natural surroundings shines through when I offer you recommendations for hiking trails, scenic viewpoints and local hidden gems.

In my free time I very often take advantage of the mountain myself, losing myself in the peacefulness of the nature. I believe that experiencing the wonders of the mountains myself allows me to have better connect with the guests, understanding their desires and needs. Estrella Nocturna has a strong sense of community and sustainability, which aligns perfect with my own values. My personal explorations in the mountains allow me to provide tailored suggestions to guests, ensuring your experiences are unforgettable.

A must visit is a climb through the mountain which is located a 20-minute drive from Estrella Nocturna. This is between us because it is quite an unpopular climb. It is a walking route that at first does not look like it promises much but if you're 10 minutes into your climb you can't believe wat you see. The sight, the feel, the animals that live there.. I really advice you that climb!

If you have any questions, concerns or just want to have a chat please come look for me in the lobby. I am here to help you!

With warm regards,
Joëlle Moony
